

# Environment for Business

The benefits to business of being more environmentally sustainable are huge. Developed with the support of leading environmental experts, this IOSH one-day course gives decision makers a clear overview of the economic benefits of the circular economy and equips them with the knowledge to explore the subject further.

*Environment for Business* is a completely different approach to environmental training for managers and supervisors. You'll find a practical programme, full of step-by-step guidance, and a sharp business focus. But you'll also find that the content engages and inspires your staff – critical to getting the message embedded across the whole organisation.
