**Globally recognised health, safety
and environmental qualifications**

NEBOSH and the UK's Health and Safety Regulator, the Health and Safety Executive (HSE), have joined forces to develop a new one day health and safety qualification for senior business leaders or those aspiring to this position.

The interactive, thought provoking content shows how leaders can influence health and safety performance and culture through their actions and behaviours.

Who should take the Health and Safety Leadership Excellence qualification?

This qualification is for senior business leaders or anyone who aspires to become one in the future.

It highlights the moral, legal and financial reasons for good health and safety leadership. It offers guidance on the key areas to focus on to make a difference and how leaders can become better advocates and influencers in relation to health and safety.

What will I be able to do after taking this qualification?

- Positively influence health and safety performance and culture in your workplace
- Apply the Health and Safety Executive's model for effective health and safety leadership
- Reflect on your own health and safety leadership style and what can influence your decision making and subsequent behaviours
- Understand the link between effective health and safety leadership and reaching cultural safety excellence

“Organisations tend to do whatever their senior leaders highlight as their top priorities. So for health and safety to be effective, it has to be led from the top of the organisation as a core value.

Good safety is good business. Leaders need to know how to have a bigger influence in order to drive the health and safety improvement agenda through the organisation.”

Nigel Clamp

Health and Safety Director,
Africa & Eastern Mediterranean Basin Region
HeidelbergCement AG

What will my employer gain from this qualification?

- Leadership that reflects HSE's model of effective health and safety leadership
- Health and safety will be factored into business decisions in the future
- Leaders who recognise how their own behaviours impact on health and safety culture

What does the course cover and how is it assessed?

The one day qualification covers the following topics:

- What health and safety leadership means
- The moral, legal and financial reasons for good health and safety leadership
- The links between health and safety leadership and culture
- What the different leadership styles are
- How human failures can impact performance and culture
- The HSE's model of effective health and safety leadership
- How leaders can build effective relationships with the workforce

The assessment will be in the form of reflective statements undertaken throughout the course. These will show how the student's knowledge, skills and behaviours may have both positive and negative effects on health and safety performance in their organisation.

Students will also need to make a commitment to a leadership intervention that will improve health and safety management within their sphere of workplace influence.

Where can I take a course leading to the Health and Safety Leadership Excellence qualification?

Details of training providers throughout the world can be found on our website.

Please contact the course providers directly to find out how their course will be structured.

Where can I find out more?

Further details, including a Guide to the Health and Safety Leadership Excellence qualification, can be found on the NEBOSH website.
